Zinc (Zn)	0.50%
0.50% Water Soluble Zinc (Zn)	

Derived from Phosphoric Acid, Diammonium Phosphate, Copper Sulfate and Zinc Sulfate
Weight per gallon: 9.86 lb at 68° F
Grams per liter: 1182 g at 20° C

GENERAL INFORMATION:

PercPlus is a formulation of nutrients designed to aid crop health. **PercPlus** may be applied on all field, row, vegetable, fruit, tree, vine, ornamental, turf, hay and pasture crops.

APPLICATION RATES:

Side-Dress: 16 to 24 Oz/acre.

Seed Treatment: 10 Oz/100 pounds of seed. *For large seed apply 24 Oz/100 pounds or contact DeltAg.

In-Furrow: 8 Oz/acre.

Seedling & Full Canopy Foliar: 32 Oz/acre.

Early season applications on seedling crops may be split into 2 applications on 10 to 14 day intervals.

Transplant Water: 8 Oz/acre in water.

Drip Irrigation: 0.20 Oz/1,000 sq ft weekly.

Injection (1:100): 1 Oz/gallon weekly (78 ppm).

Buffer/Activator: 4 Oz/acre in tank-mix.

Pump-Up Sprayer: 2 Oz/gallon of water. Spray light mist over foliage from 3 feet away. Apply weekly as needed.

COMPATIBILITY: This product is compatible with most commonly used pesticides. However, it is advisable to always check for compatibility. **NOTE:** Always follow label directions and precautionary statements on pesticide label.

*For More Information Please Contact **DeltAg**.

PercPlus™

PERCPLUS VERSATILITY

Many growers across the country have discovered the many methods of utilizing **PercPlus** and its great benefits.

Seed Treatment: 10 ounces per 100 pounds seed.

In-Furrow: 8 ounces per acre in with fungicide or liquid fertilizer.

Seedling Foliar: The original design of **PercPlus** at 32 ounces per acre per application may be applied in 2 to 3 applications of 8 to 12 ounces per acre per trip. May be applied with glyphosate or other pesticides.

Late Season Fungicide Applications: 12 to 16 ounces per acre. May be applied with fungicide. Often applied with **Potassium Plus** & **Boron Plus**.

Buffer/Activator: Growers like **PercPlus** at 4 ounces per acre in with insecticides in all poison applications as an excellent buffer and feel it helps overall crop health.

PercPlus™

Chemistry... Not Fertilizer!

In-Furrow or Foliar

PercPlus is a blend of nutrients, vitamins and amino acids. **PercPlus** is formulated to promote root development and early growth.

Help Your Crop at Early Stages:

PercPlus applied early has proven to be very beneficial as an in-furrow or foliar on many crops. Applying **PercPlus** at true leaf can be beneficial for your crop. **PercPlus** helps the plant to quickly grow out of its young vulnerable stage. Adding **PercPlus** helps your crop to grow normally and better withstand diverse conditions.

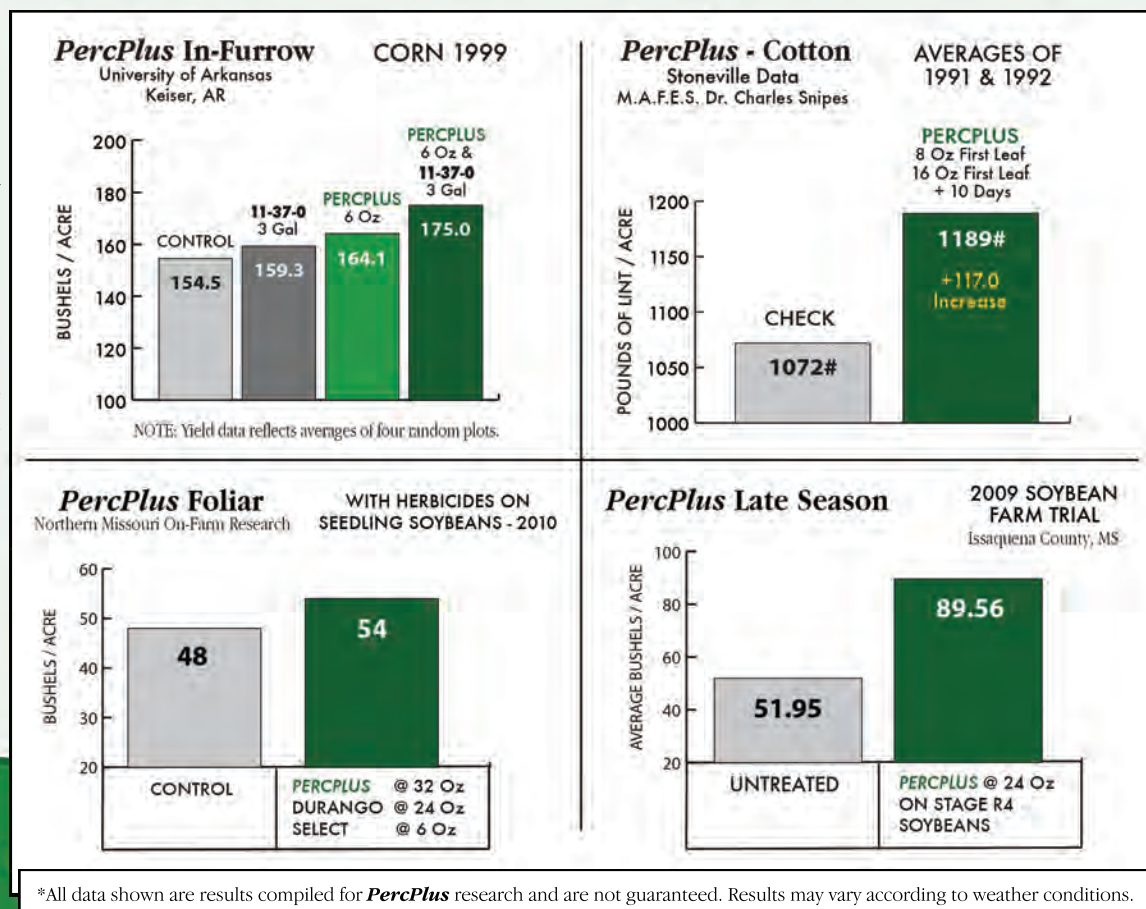

PercPlus is versatile and can be applied to any crop throughout the entire season with great results. **PercPlus** should be added at crucial stages or any time plants are in a weakened condition. **PercPlus** applied late season has been shown to be beneficial, and may be applied with fungicide.

PercPlus buffers pH down in tank mixes and has been tank mixed with many pesticides. Always check for compatibility.

Proven Results:

These results, compiled by University researchers, show substantial yield increases. Field results have been very consistent over many years and show a great return on your investment.
