Net Weight:

**GENERAL INFORMATION:** DeltAg Seed Coat is a formulation of nutrients to improve seedling health.

**NOTE:** DeltAg Seed Coat should not be considered as a replacement for customary inoculant or pesticidal seed treatments.

## APPLICATION RATES:

**General:** 1 to 2 Oz per 50 lbs. of seed is ample for most seed sizes. The rate should adequately coat the seed without build-up in the hopper box or seed tender. Should build up occur in the planter, reduce the application rate.

## APPLICATION DIRECTIONS:

**Timing:** DeltAg Seed Coat may be applied directly to the seed in advance of planting and the seed re-packaged or applied the day of planting.

**Bulk Hopper Application:** Sprinkle approximately 1/3 Seed Coat over the top of the seed before dumping into planter hopper. Once filled, sprinkle the balance over the seed in bulk hopper.

**Unit Hopper Application:** Sprinkle the Seed Coat powder over the top of the seed in each hopper.

NOTE: 4 Oz measuring cup is included.

**CAUTION:** KEEP CONTAINER TIGHTLY CLOSED AND OUT OF REACH OF CHILDREN.

## CONDITIONS OF SALE:

Follow directions carefully. Weather, crop conditions, mixtures with other chemicals and other influencing factors in the use of this product are beyond the control of the manufacturer or seller. Buyer assumes all risk of use, storage and handling of this material when not in strict accordance with directions.
